## Reviews of the The Art of Teaching Craft: A Complete Handbook (Milner Craft) by Deborah Kneen, Joyce Spencer

- **Conjukus**

Very good book with ideas that any teacher of craft should use when designing and teaching a course.

Being aware of the different types of learners as outlined in the book is especially important for the success of the course .it gives very good advice about your relationship with the shops where you

teach.

I was not at all impressed when i first saw it (esp the cover). But, believe me when i started to read i could not stop until i finished it. It has some excellent information for people who plan to teach or Are teaching crafts. Some information is related to the 90's but overall a teacher can get a lot of tips on teaching. It helped me a lot, as a novice in teaching embroidery.

I would like to thank the authors because it helped me a lot in teaching, where i corrected certain mistakes I made.

The saying "Never judge a book by its cover" suits this book!
