Reviews of the **One Quest** by Claudio Naranjo

- **Nekora**

Claudio Naranjo books are excellent. easy to read and with great wisdom. The books show how humble he was by honestly describing his successes and failures.

The books met my expectations

- **Lailace**

I note that this 60's era book has been solidly ignored by the reading public. I'm giving it 4 stars for effort, but it may be a superficial thrashing about in the Grand Sleep of Human Thought. I read it 40 years ago, and I don't remember it well. I do remember Claudio, and he seemed like a New Age psychotherapist type with all the bennies, if you know what I mean. The New Age just never had the cultural heft to get real legs.
